HPMA North West in conjunction with Globis Mediation Group are offering a practical half day session on '**Using Lumina to understand personality types and collaborate with others**', aimed at middle to senior HR professionals (HR Business Partners/Senior Advisors and department leads etc).

The session will enable delegates to start to think about their own personal styles and ways of dealing with others, not just their own teams, but how they can support and diffuse situations within the workplace using particular tools and techniques.

The session will be interactive and participative and will challenge delegates to think about our traditional HR approaches and how they can move from formal dialogue and sometimes stand-off positions to more collaborative positive outcomes in relationship breakdown cases.

We look forward to kicking off the new year with equipping you with the knowledge and skills you can then practice through 2018 to help you reduce the number of cases which reach a relationship breakdown point and result in lengthy and costly ER cases.
